

Supplier Capabilities Spotlight

Powder-Solutions Inc.

Powder-Solutions, Inc. recently added the MAGNATTACK™ line of magnetic separators to their innovative group of product offerings. The magnetic separators include the RAPIDCLEAN™, MAG-RAM™, Spherical Pipeline Magnet, Liquid Pressure Pipeline Magnet, Magnet Filter Combo, and the Magnetic Mat.

Each MAGNATTACK™ item has superior design elements to provide the best product protection. Quick-clean or self-cleaning capabilities, sanitary design features, dust-tight construction, 10,000+ gauss rare earth magnets and proven magnetic separation proficiency are just some of the notable features that separate MAGNATTACK™ magnets from the competition.

The MAGNATTACK™ line of magnetic separators will revolutionize the way you remove magnetic contamination from processing lines. MAGNATTACK™ has been serving the food and dairy industries with solutions for metal fragment removal since 1969, and strives to provide the best in high strength, easy to clean magnetic components.

All MAGNATTACK™ items focus on sanitary, dust-tight designs while incorporating high strength, 10,000+ gauss rare earth magnets. The available magnetic separators were

designed to attack both small, ferrous materials and large metal contaminants.

We offer many different products, including the easy-clean grate magnet RAPIDCLEAN™, the self-cleaning grate magnet MAG-RAM™, the inline Spherical Pipeline Magnet bullet magnet replacement, the Liquid Pressure Pipeline Separator, the Magnet Filter Combo, and the versatile Magnet Mat used for entrances and exits to and from sensitive areas to pick up trace materials from shoes.
