

BluePrint Automation

BluePrint Automation (BPA) is a world leader in end-of-line packaging automation. With 38+ years of experience in the dairy industry, BPA designs, develops and manufactures packaging solutions for flexible and other tough-to-handle packages.

- **Vision Guided Robotics**

- o Delta robots picking packaged and un-packaged (naked) product for loading into your container, wrapper or hffs machines. **Great for loading ice cream bars and frozen novelties into cartons.** Solutions include Stacking & Loading - Wrapper Loading - Variety Pack - Dinner Tray Loading - Kit Assembly – Case, Tray and Carton Loading.

- **Case and Tray Packing**

- o Solutions for flexible and other tough to handle packages. Providing vertical and horizontal case packing solutions; including wrap around case packing, end-load cartoning and innovative retail ready solutions. BPA specializes in **case packing bags and bars of cheese, including IWS.**

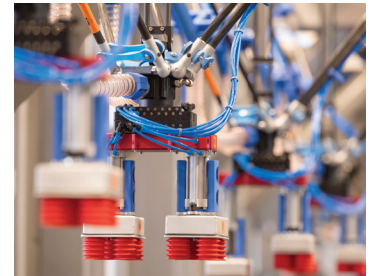

- **Turnkey Packaging Systems**

- o Taking control of your line from the end of processing through palletizing.

Backed by thousands of successful installations in over 30 countries, BPA has three full-service manufacturing facilities in the USA and Europe, two additional facilities in Hangzhou China and São Paulo

Brazil and ten additional subsidiaries throughout the world for sales and service. BPA's systems are constructed for around the clock operation and known worldwide for their quick change over, flexibility, speed and simple design.

Your company is unique. Listening to your needs is the most important aspect of our initial work. Our goal is to devise a solution specific to your needs. We measure our success by your success.
