

## Waldner North America

Waldner is a global leader in uniquely engineered fill and seal machinery for cup, tray, pouch and spouted pouch. Waldner machines operate at 95% or better OEE, a hallmark of Waldner engineering. PTI/Waldner specialize in filling fresh and cultured dairy products, baby food, pet food, RTE ready meals, beverages and more.

### Solutions for Pre-made Pouch and Pouches with Spouts, Caps or other Fitments

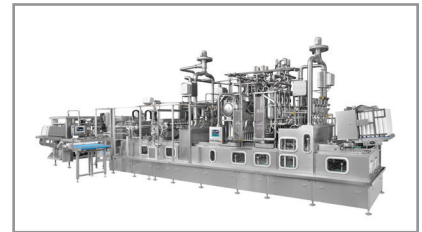

Waldner's DOSOMAT Rotary and Inline Pouch systems offer solutions for low output pouch filling and high productivity, high-volume pouch filling applications. Each stage of this process insures extremely efficient control and handling of the pouch, multiple pouch filling options including advanced filling systems combined with ultrasonic sealing.

### Solutions for Cup & Tray Filling

WALDNER Filling and Sealing Equipment offers high performance solutions for a wide range of applications for shelf-stable cups, trays and portion packs. DOSOMAT MicroBio-Clean machines with cup/lid sterilization technologies for fresh and cultured dairy products are complete wash-down, CIP rated IP-65, USA dairy environment construction.

### A snapshot of a few client case studies for dairy applications:

- Specialty cheese spread manufacturer relies on Waldner's reliability and flexibility to grow their brand.
- Greek Yogurt – Ensuring faster and more precise filling!
- Filling Cream Cheese – Food Specialty Manufacturer invests in

filling and sealing machine that easily packages viscous cream cheese with speed and accuracy.

- Taking Aim at Bacteria! Learn about different sterilization technologies and techniques.
