

Supplier Capabilities Spotlight

Axon

Axon is a leading manufacturer of fully automated, heat-shrink labeling, tamper-evident banding, and stretch-sleeving equipment. With more than 30 years' experience delivering products and solutions that are affordable, reliable, versatile, and easy to use, Axon sets the standard for technology development and customer value.

- **Shrink Sleeve Applicators:** Achieve maximum shelf impact and production efficiency with machines that apply 360° full body decorative labels to virtually any container shape. Our shrink sleeve label applicators offer the widest layflat range in the industry with speeds of up to 800 containers per minute.

- **Tamper Evident Banding:** Shrink seals provide cost-effective protection of product integrity. Axon offers a wide va-

riety of systems and designs for applying tamper evident bands to various shaped dairy products, from yogurt to ice cream containers.

- **Heat Shrink Tunnels:** Axon's heat shrink tunnels are designed to work with both tamper evident bands and sleeve labels. We offer a full portfolio of proven infrared, convection, and steam shrink tunnels that guarantee optimal shrink performance and product presentation.

- **Stretch Sleeve Applicators:** Stretch sleeves are a practical solution for labeling large containers and our Styrotech brand offers the most precise and energy efficient application technology in the market.
