

# Supplier Capabilities Spotlight

## Fristam Pumps USA

Fristam is a leading manufacturer of high-performance stainless steel pumps, blenders, and mixers. Our equipment is designed for precision and durability to outlast and outperform all others and provide the highest lifetime value.

### Positive Displacement Pumps

- Fristam's FKL series is the strongest, most reliable sanitary positive displacement pump available. It offers rotors-in "True CIP" and high efficiency. The durable FKL is rated for up to 500 PSI standard.
- Standard-duty FL2 PD pumps handle products gently and efficiently and are completely CIP'able.
- Fristam's new FL3 series positive displacement pump provides gentle, high speed product transfer and complete CIP in one pump.

### Centrifugal Pumps

Fristam centrifugal pumps serve as the industry benchmark for quiet, efficient, low-maintenance operations. They include:

- Easy-maintenance FPR series pumps, built with a front loading seal.
- Heavy-duty FP series pumps for demanding applications such as vacuum withdrawal from evaporators, viscous, hot, or abrasive products.
- Standard-duty FPX series pumps for products with viscosities up to 600 cps.
- High-pressure FM, FPH and FPHP series pumps for discharge pressures to 1,250 PSI.

### Self-Priming Liquid Ring Pumps

For CIP solution and foamy or aerated products, Fristam's FZX series pumps reduce waste by completely removing product from equipment.

### Powder Mixers

Fristam's Powder Mixer blends dry and wet ingredients into a fluid stream. The Fristam Powder Mixer is customizable and provides consistent batch-to-batch repeatability and reduced blend times.

### Shear Blenders

FS Shear Blenders improve product consistency by removing agglomerates and preventing lumps and masses in product. It offers repeatable results and reduces raw material usage and processing times.
