

# Supplier Capabilities Spotlight

## Harco Enterprises Limited

Since 1964, Harco Enterprises Ltd. has been a supplier of quality equipment and supply items to the food, dairy, and pharmaceutical industries. With efficient and experienced team members, we are able to turn your orders and inquiries into positive results expeditiously. We carry a large inventory of spare parts to support new equipment sales as well as items for many other brands.

Coupled with our fully equipped machine shop utilizing CAD/CAM and conventional machining methods, we are capable of a multitude of tasks. We specialize in stainless steel machining, welding and polishing for the food industry as well as general machining in all materials.

We are a stocking distributor of sanitary pumps, valves, fittings, hose, lubri-

cants, gaskets, brushes, thermometers, plate heat exchangers, separation and pasteurization equipment, and much more.

### KEY CAPABILITIES INCLUDE:

- Sanitary positive displacement pumps, valves and assemblies
- Heat exchangers
- Wash down stations
- Brushes
- Pipeline gaskets
- Sanitary lubricants
- Color coded items for HACCP programs
- Hose and tubing
- Skidded modules
