

Supplier Capabilities Spotlight

SPX Flow Technology

➤ APV®

APV is globally recognized for providing high quality process engineering solutions and helping customers improve their plant's performance and profitability. Equipment options include a range of homogenizers, plate heat exchangers, pumps, valves and process systems.

➤ Anhydro

Anhydro combines a total of more than 250 years of specialization and experience in evaporation, drying and dewatering equipment for the dairy, food and beverage, brewery, chemicals, starch and pharmaceutical industries. Anhydro systems and equipment are renowned for their design, engineering, process quality and efficiency. Spanning from spray dryers, fluid bed and tube bundle dryers to evaporators, presses and brewery conveyors, customers have a wide range of flexible and fully customizable solutions to choose from.

➤ Gerstenberg Schröder

The Gerstenberg Schröder (GS) brand is internationally recognized for high quality food processing equipment. GS specializes in scraped surface heat exchanger (SSHE) technology and continuous butter and emulsification equipment. Supplying plants ranging from individual machines to complete process lines, GS equipment designs are the fruit of intensive development and continual refinement, resulting in top quality systems that help you process the widest range of products and increase your competitive edge.

➤ Lightnin®

With over 85 years of experience in mixing technology, process knowledge and brand innovation, the LIGHTNIN brand enjoys a global reputation for durable, long-lasting mixers, agitators, aerators, and flocculators for fluid process systems and offers a full spectrum of impeller designs for diverse applications. In addition, a worldwide service network for mixer & gearbox repair including a replacement parts program is also available.

➤ Waukesha Cherry-Burrell®

The Waukesha Cherry-Burrell brand enjoys a rich history of process innovation and application expertise. Equipment includes positive displacement pumps, centrifugal pumps, mix proof and single seat valves, fittings and Votator brand scraped surface heat exchangers.

Seital Separation Technology

Seital Separation Technology

Current and evolving customer needs always come first at Seital Separation Technology. Through close collaboration with our customers, an innovative approach and cutting-edge R&D we design, develop and deliver best-in-class separation solutions for the dairy industry that provide superior quality and yield at the lowest possible cost. We are strongly present in the food, beverage and dairy industries as well as the oil and fats, pharmaceutical and biotechnology industries.
