

Danisco USA Inc.

Enhancing health with Danisco

Creating the most successful Health & Wellness (H&W) solutions is a matter of balancing health benefits with the way consumers experience a product. At Danisco, we understand that good flavor and good health should never be mutually exclusive.

Our expertise in the effective, synergistic interplay of both active and functional ingredients helps deliver dairy products that promote good health and taste great. The combination of that expertise with a broad product portfolio is what makes Danisco special as an ingredient supplier. By pairing health-promoting ingredients with our functional ingredients—stabilizers, emulsifiers, enzymes and cultures—we can help you achieve the optimum combination of taste, texture and nutritional benefits. Sugar, fat and calories can be reduced while maintaining desirable sensory characteristics.

Our health and nutrition portfolio includes ingredients that support:

- Digestive health
- Immune health
- Bone health
- Weight management
- Heart health

Sustainability is also an important part of our H&W solutions. Consumers who fall into the LOHAS (lifestyle of health and sustainability) segment are interested in naturally healthy foods, the environment and a simple, sustainable way of life. Danisco offers ingredient solutions that respond to the needs and desires of this important and growing market segment, delivering a “clean label,” organic offerings and natural food protection through sustainable business practices.

Danisco can help you take advantage of opportunities to increase health benefits in a wide variety of dairy applications:

- Milk
- Dairy-based beverages
- Yogurt
- Smoothies
- Kefir
- Cheese
- Cottage cheese
- Sour cream
- Coffee creamers
- Ice cream/frozen desserts
- Petit Suisse
- Desserts

At Danisco...first you add knowledge

When you choose to formulate with ingredients from Danisco, you're benefiting from decades of scientific research, discovery and development by some of the brightest minds in the world of food science. You're also getting the support of a global supplier with an impressive reputation that offers the technical, market and regulatory expertise you need.

Through knowledge-based innovation, our health-promoting, functional ingredients bring health to everyday life. To let us help you take your dairy products to the next level, call Jacquie Coffin at 1-800-255-6837 x 3454.
